

Monthly report for December 2018

The month of December was very slow around the Holidays hence there was a limited number of decent deals to choose from. Despite Prosper 2000 being fully invested at this time we continue to search for best Investment deals we can find and offer to all of you. Every deal we continue to present to you offers minimum double and in some cases triple digit returns with limited and in advanced calculated risk. We currently have one property on the market for sale and we are in the final stage of completing a rehab of another property we will be placing on the market for sale in a next two to three weeks.

Six properties Redeemed in the month of December. Total of One property was sold and zero were sold bellow the price level we were willing to pay for. Being fully invested may be a good state to be in; however, it is unfortunate to continue seeing multiple properties being sold to other investors instead of all of you or our clients – assuming we would have more Investment capital to purchase them for.

Prosper 2000 is in process of updating our website that will allow all of you to see the results of EVERY single deal we have ever offered for partnership. Reports will include the purchase price of the properties acquired by other investors and the price it was sold for. Most importantly, each investment will show what our projections were vs. what the actual profits were to those investors the profits that could have been yours to keep.

Prosper 2000 reviewed 15 Investments this month and processed Seven Property Analysis Reports. Six Investment Deals were offered to “YOU” outside Investors in the month of December.
